

ARCHITECTURE & INTERIOR DESIGN

- 6 Prerequisite Foundation Level
- 10 Required Advanced Level
- 11 Electives

Prerequisite Foundation Level

These courses provide fundamental knowledge and skills in the field of interior design. For more information on the Master of Interior Architecture degree program see page 7.

For information on enrollment, location, and space availability call (800) 825-9971. For information on course content email arc_id@uclaextension.edu, visit arcid.uclaextension.edu, or call (310) 825-9061.

For online course technical requirements see page 4.

CAD COURSE REQUIREMENTS

Prerequisite: All CAD courses assume knowledge of drafting principles and basic PC (Windows) computer skills. Advanced CAD courses assume knowledge of the application as defined in the introductory course.

Note: All computer courses are taught on a Windows platform in computer labs. Mac users may download Mac-compatible versions of AutoCAD, Photoshop, Illustrator, SketchUp/SketchUp Pro and Podium for laptop or home use, but will be responsible for learning mouse clicks, keystroke conversions, etc. independently. There are currently no Mac versions of Revit or 3ds Max Design. Mac users may work in a Windows partition using Parallels or other Windows emulation software. For more information, please call (310) 825-9061.

All CAD courses are fast-paced and complex; absence from any meeting is discouraged. The courses require at least three hours of computer work outside of class per week. Lab hours are not available; therefore, students must have access to their own hardware and software for the courses in which they enroll.

FREE SOFTWARE AND SOFTWARE LICENSES

Students may download free student versions of Revit and AutoCAD upon proof of student status through the Autodesk Education Community website. Students also may be eligible for academic rates on other software for their own home computer. Prices and restrictions are subject to change by the software developers. Software versions should reflect the version used in class; an older version may not possess the same interface or tools demonstrated in class. It is each student's responsibility to verify that his/her computer meets the software's minimum system requirements. For more information call (310) 825-9061.

Fundamentals of Interior Architecture

X 438 Art 4 units

This course is an introduction to the process of commercial and residential interior design. Lectures and projects introduce students to design theory, principles of design, design vocabulary, design psychology, methods of programming, and the history of design in Los Angeles and Southern California. Students learn about the human element in design, sustainable design, the materials used in interior design, and the process of design as practiced in professional offices. Guest lecturers include some of L.A.'s most distinguished architects and interior designers. Enrollment limited. This course is equivalent to Cal Poly Pomona INA 501. Internet access required to retrieve course materials.

Eleanor Schrader, MBA, Loyola Marymount University. Ms. Schrader also has done graduate work in fine arts and decorative arts at Sotheby's Institute, London and graduate studies in architectural history at USC. She is a professor at Santa Monica College, where she teaches art history and architectural history. Ms. Schrader conducts architectural tours in Los Angeles, has worked for a fine arts auction house, has served as a design review commissioner for the City of Beverly Hills, was named to *Who's Who Among American Teachers*, and was a recipient of the UCLA Extension Department of the Arts Instructor of the Year Award, 2002, and the UCLA Extension Distinguished Instructor Award, 2008.

Design Communication I

X 467.17A Art 6 units

This beginning course focuses on basic freehand drawing and drafting. All the components essential to good drawing are presented and discussed. Working almost exclusively in black-and-white, students embark on a series of exercises that introduce important visual concepts — composition and design, contour and line, proportion and scale, plan and section, form and space, tone and shadows — plus the ability to create drawings that are rich in both information and psychological content. This class is based on the USA standard measurements of feet and inches and not the international metric system. Media covered include a variety of sketching and drafting tools. Enrollment limited. This course is equivalent to Cal Poly Pomona INA 511. Visitors not permitted. Internet access required to retrieve course materials.

Color Theory and Application

X 452 Art 4 units

This course covers the study of the perception of color, its permutations and its dimensions, using traditional as well as contemporary methods, emphasizing individual experimentation through lab exercises and demonstrations. Topics include the color wheel; Munsell and Albers theories; perception, symbolism, and psychology; pattern-painting techniques; and the applications of color theories to art, architecture, and interior design. Student projects and lectures combine intense exploration of theories with hands-on experience in a variety of media. Prerequisite: X 454A Elements of Design I or consent of program advisor. Design Communication II

X 466E Art 6 units

This course further introduces the student to the use of line drawings as a medium for communicating design concepts. Beginning with the connections of architectural plan, section, and elevation, the course proceeds to explore the full range of constructed line drawings, including axonometric, one-point perspective, and model-making. This course uses U.S. standard basic units of length (inch, foot, yard, etc.), not the international metric system. Two conceptual design projects are used to develop skills in communicating design ideas. Prerequisite: X 467.17A Design Communication I. Enrollment limited. Digital Presentation I: Photoshop/Illustrator

X 468.20 Architecture 4 units

This comprehensive hands-on course is designed to introduce designers to digital design tools. The course begins with an overview of architectural and interior design concepts; students will review client presentations and see how they were created. Students learn why the use of these professional tools is essential to the creative process of design and presentation production, and are introduced to using the computer for drawing, illustration, and layout. Fundamentals of layout, typographic design, scanning, and image-enhancement software are covered; student-created projects are presented in class. Software applications covered include Adobe Photoshop and Illustrator. Prerequisite: Working knowledge of Windows or Mac operating system. Software requirements: The most recent versions of Illustrator and Photoshop. This course is equivalent to Cal Poly Pomona INA 550. Attendance at the first class is mandatory. Visitors only permitted at the first class if space allows. Internet access required to retrieve course materials.

History of Environmental Arts: Part II

X 427.8B Art 4 units
Part 2 of a 4-part survey course on the environmental arts of the Western world. This course traces the architecture, landscape architecture, furniture, art, and decorative arts from the Italian Renaissance to the beginning of the 19th century in France, England, and America. Periods covered include the Renaissance, Mannerist, Baroque, Rococo, and Neoclassic. Instruction focuses on the man-built environment influenced by geographical location and the social, religious, economic, and political forces of history. Major monuments are discussed in terms of function, symbolism, methods of fabrication, style, use of color, ornament, and significance. Illustrated lectures, readings, and student projects develop an appreciation of the rich cultural heritage of the Western world. Students learn how to utilize library and museum resources and recognize and evaluate significant environmental design movements. Intended to establish an understanding of the achievements of the past in order to more fully understand the present. *For technical requirements see page 4. Enrollment limited. This course is equivalent to Cal Poly Pomona INA 562.*

The UCLA Extension/California State Polytechnic University, Pomona Collaborative Degree Program in Interior Architecture offers a curriculum leading to a Master of Interior Architecture (MIA) degree from Cal Poly Pomona that is fully accredited by the Council for Interior Design Accreditation (CIDA).

The program has 2 levels:

PREREQUISITE FOUNDATION LEVEL

The 1st level has 18 courses that provide fundamental knowledge and skills in the field of interior design. Students who successfully complete this level earn a Certificate in Interior Design: Foundation Level.

REQUIRED ADVANCED LEVEL

The 2nd level has 63 quarter units in a range of advanced topics in interior architecture. Students who successfully complete this level earn a Master of Interior Architecture degree conferred by Cal Poly Pomona.

To apply for the Required Advanced Level, students must have completed a bachelor's degree in any field, have successfully completed all Prerequisite Foundation Level courses with a grade of "B" or better, and be evaluated for advanced standing by the program advisor; for application details and deadline see page 9.

For More Information

arc_id@uclaextension.edu | (310) 825-9061

For complete program, admissions, and curriculum information visit arcid.uclaextension.edu/MIAprogram or www.csu.pomona.edu/go/mia.

Key Program Facts

- The courses are taught at UCLA Extension's Westwood facilities. The program is managed by the Dept. of Architecture and the Cal Poly Pomona College of Extended University in partnership with UCLA Extension.
- Current students who complete the Prerequisite Foundation Level Courses with a GPA of "B" or better and have completed a bachelor's degree are eligible to apply for the MIA program.
- Current students without a bachelor's degree or who elect not to pursue the MIA, have the option of completing Prerequisite Foundation Level courses to earn a Certificate in Interior Design: Foundation Level and may take the NCIDQ exam after a higher amount of required work experience.

Apply to the MIA Program

Step-by-Step Instructions

Required Educational Background

Admission to the Master of Interior Architecture degree program requires a baccalaureate degree with a minimum 3.0 undergraduate GPA and completion of the 82 prerequisite units or equivalent. Applicants who do not meet these criteria may be admitted on a conditional basis if evidence of compensating qualifications is furnished. Applicants with an undergraduate degree in interior design, architecture, or similar design-related field may be evaluated for advanced standing by the program advisor; for an appointment call (310) 794-3747.

Required Application Materials

1. Completed application form
2. Official transcripts from all undergraduate university coursework
3. For those whose native language is not English, minimum TOEFL score of 550 (paper-based), 213 (computer-based), or 80 (Internet).
4. \$55 admissions application fee (check or money order payable to CSU Pomona)

Mail items 1-4 to:
Office of Admissions & Outreach
California State Polytechnic
University, Pomona
3801 W. Temple Ave.
Pomona, CA 91768

5. Statement of purpose explaining your interests, motivations, and goals in pursuing a professional degree submitted on a separate sheet (not included in the application).

6. Three letters of recommendation from individuals in a position to assess your potential for either the interior design profession or a master's level academic program.
7. Portfolio of visual work illustrating your creative or analytical abilities in written, graphic, or mathematical form. The portfolio should be no larger than 9"x12" bound; do not include original material.

Mail copies of items 1-4 plus items 5-7 to:

Interior Design Law (Online)

I: The Designer-Client Relationship

II: Intellectual Property, Trade Secrets, Unfair Competition, Employment, and Special Topics

Artist, engineer, entrepreneur, diplomat, therapist—these are some of the many hats that interior designers are required to wear in their practice. The diversity of roles also multiplies the number of potential legal perils that interior designers face.

The goal of the course is to help students develop an instinct for the legal issues that impacts the interior designer's practice that might not be evident to the non-lawyer.

Interior Design Law II introduces students to fundamental principles regarding the different forms of

business entities and contracts with employees and independent contractors. **Each class can be taken independently and in any order.**

Taught by **Henry Lien, JD** and private art dealer.

Interior Architecture Studio I

X 433 Art 6 units

In this first in a series of studio courses, students are given the opportunity to apply fundamental design principles to the layout of interior spaces. Starting with the development of a design concept, students learn how to develop a space while incorporating the elements of ergonomics and human factors. Students also explore methods of analyzing a client's program, beginning with the bubble diagram, the block plan, and the adjacency requirements. Through a series of assignments, students become familiar with current ADA codes and clearance requirements as well as the required circulation and exit paths for a variety of building types. *Prerequisite:* All Level 1 courses in the Certificate in Interior Design (see curriculum sequence) or consent of program advisor. *Enrollment limited. This course is equivalent to Cal Poly Pomona INA 505. Restricted course; call Arc_ID Counseling Office at (310) 794-3747 for permission to enroll. Interior Architecture Studio II

X 430A Art 6 units

This studio course introduces students to the process of linking rooms and spaces by architectural promenades. The defining of public vs. private space is examined as a principle means of spatial organization. A realistic residential situation is considered as students design a small single-family residence with full code compliance and learn to create environments that relate the atmospheric qualities of individual rooms to an overall concept of movement through space. *Prerequisite:* X 433 Interior Architecture Studio I or consent of program advisor. *Enrollment limited. Master's Project Interior Architecture Documents

X 498 Art 8 units

In this final studio course, students develop the project they created in Thesis Project Design into a set of construction documents with specifications and explore a range of drawings required to obtain complete and accurate cost estimates. Instruction emphasizes how designs are detailed and described, and examines methods of integrating architectural and interior design, as well as mechanical and electrical elements and systems. Each project is brought to a level of completion to enable students to demonstrate their ability to be an effective entry-level member of any design firm's project team. *Prerequisite:* X 497 Research and Programming Methodologies and X 498.1 Master's Project Interior Architecture Studio. *Enrollment limited. Residential Remodeling

X 406.6 Architecture 3.25 units

This introductory course explores current information on the challenges and pitfalls of residential remodeling. Remodeling is presented as a series of steps covering potential resale value; remodeling cost and financing; architectural planning and design; household safety considerations; geologic, site, and structural engineering; resistance to earthquake damage; home mechanical systems (electrical, plumbing, heating, and cooling); building department procedures and limitations; and residential construction. Illustrated lectures and a field trip are conducted by design professionals and craftspeople who specialize in remodeling. Participants also review the redistribution of existing space and the quest for new space to satisfy ever-changing modern lifestyle needs. Kitchens, family rooms, baths, and master suites receive special attention. *Enrollment limited. This course is equivalent to Cal Poly Pomona INA 538. Photographing Architecture and Interiors

X 467.11A Art 4 units

A study of the basic techniques of the medium as a powerful tool for the designer, as well as those interested in pursuing a career in architectural photography, this course introduces the tools and techniques used in photographing architecture, interiors, renderings, plans, design boards, and scale models. Using digital cameras, participants create compelling descriptive images that best show their work through the assignment and critique process. Lectures focus on the history of architecture in photography up through the medium's current trends. Demonstrations cover basic compositional and lighting techniques. *For technical requirements see page 4. Enrollment limited. This course is equivalent to Cal Poly Pomona INA 560. Due to the prevalence of digital technology in today's shelter publishing and printing industries, using Photoshop to manipulate imagery is integral to the process; students must have access to a digital camera and Photoshop.*
