

Internship Program Exit Review

In order to help us improve and/or modify our Internship Program, we would appreciate knowing your thoughts regarding the following questions.

NAME OF STUDENT

INTERNSHIP FIRM

1. **When discussing possible internships with student intern candidates, we stress that they may be exposed to architecture, interior design, marketing, presentations, sales, purchasing and expediting of projects, and the business workings of a firm. How did this correlate with your experience?**
2. **Should intern candidates be given additional information about the Internship Program before beginning an internship? If so, what type of information?**
3. **In what specific areas was your internship most valuable as a learning experience?**
4. **Which tasks did you enjoy the most? Which the least?**

5. Was there something that you did not experience that you would have liked to have experienced?

6. What were the particular strengths of the firm with which you interned? What are some areas in which you feel they could improve?

7. Do you have any additional input on the UCLA Extension Arc+ID Internship Program?

Please return this form as soon as possible after the completion of the internship.
