❖ In-Person

All class meetings are taught in-person, with the instructor and all students in the same physical classroom.

\* Remote

All class meetings are scheduled and held online in real-time via Zoom. Course materials can be accessed any time through an online learning platform.

🌐 Online

Course content is delivered through an online learning platform where you can engage with your instructor and classmates. There are no required live meetings, but assignments are due regularly.

🎧 Hybrid (In-Person)

A blend of in-person class meetings and online or remote instruction—may include scheduled Zoom meetings and/or course content tailored for online learning.

📺 Hybrid (Remote)

Offered fully online, this blend of remote and online instruction features live class meetings via Zoom and additional course content tailored for online learning.

✚ Hybrid (Flexible):

Attend scheduled class meetings in person or online. Live instruction is held in a physical classroom and students may elect to join all class meetings either in person or remotely via Zoom.

🌐 Web-Enhanced Course

Internet access required to retrieve course materials.

Course Schedules

Delivery format and/or 'remote' meeting times listed are subject to change. Please refer to the UCLA Extension website, [uclaextension.edu](http://uclaextension.edu), for up-to-date course information.

*Asynchronous:* students engage a variety of learning materials posted on Canvas (that may include lectures, interactive discussion boards and quizzes) and interact with the instructor and other students using messaging tools.

*Synchronous:* instruction occurs in-real time during a live, pre-scheduled Zoom session(s) where instructors and students interact.

► Course Times

All times quoted in this document's course descriptions are Pacific Time.

# ARCHITECTURE & INTERIOR DESIGN

For more information call (310) 825-9061.

## Prerequisite Foundation Level

These courses provide fundamental knowledge and skills in the field of interior design. For more information on the Master of Interior Architecture degree program, see page 00.

For information on enrollment, location, and space availability call (800) 825-9971. For information on course content email [arc\\_id@uclaextension.edu](mailto:arc_id@uclaextension.edu), visit [arcid.uclaextension.edu](http://arcid.uclaextension.edu), or call (310) 825-9061.

For online course technical requirements see page 4.

## Design Fundamentals

ARCH X 438

### Fundamentals of Interior Architecture

4.0 units

This course is an introduction to the process of commercial and residential interior design. Lectures and projects introduce students to design theory, principles of design, design vocabulary, design psychology, methods of programming, and the history of design in Los Angeles and Southern California. Students learn about the human element in design, sustainable design, the materials used in interior design, and the process of design as practiced in professional offices. Guest lecturers include some of L.A.'s most distinguished architects and interior designers.

Ms. Schrader has done graduate work in fine and decorative arts at Sotheby's Institute in London and New York and graduate studies in architectural history at USC. She was a recipient of the UCLA Extension Department of the Arts Instructor of the Year Award in 2002, and the UCLA Extension Distinguished Instructor Award in 2008.

ARCH X 46717A

### Design Communication I

6.0 units

This beginning course focuses on basic freehand drawing and drafting. All the components essential to good drawing are presented and discussed. Working almost exclusively in black-and-white, students embark on a series of exercises that introduce important visual concepts—composition and design, contour and line, proportion and scale, plan and section, form and space, tone and shadows—plus the ability to create drawings that are rich in both information and psychological content. This class is based on the U.S. standard measurements of feet and inches and not the international metric system. Media covered include a variety of sketching and drafting tools.

### Design Communication II

6.0 units

This course further introduces the student to the use of line drawings as a medium for communicating design concepts. Beginning with the connections of architectural plan, section, and elevation, the course proceeds to explore the full range of constructed line drawings, including axonometric, one-point perspective, and model-making. This course uses U.S. standard basic units of length (inch, foot, yard, etc.), not the international metric system. Two conceptual design projects help develop skills in communicating design ideas.

## Design Software

### CAD COURSE REQUIREMENTS

*Prerequisite:* All CAD courses assume knowledge of drafting principles and basic PC (Windows) computer skills. Advanced CAD courses assume knowledge of the application as defined in the introductory course.

*Note:* All computer courses are taught on a Windows platform in computer labs. Mac users may download Mac-compatible versions of AutoCAD, Photoshop, Illustrator, SketchUp/SketchUp Pro, and Podium for laptop or home use but will be responsible for learning mouse clicks or keystroke conversion independently. There are currently no Mac versions of Revit or 3ds Max Design. Mac users may work in a Windows partition using Parallels or other Windows emulation software. *For more information call (310) 825-9061.*

All CAD courses are fast-paced and complex; absence from any meeting is discouraged. The courses require at least three hours of computer work outside of class per week. *Lab hours are not available; therefore, students must have access to their own hardware and software for the courses in which they enroll.*

### FREE SOFTWARE AND SOFTWARE LICENSES

Students may download free student versions of Revit and AutoCAD upon proof of student status through the Autodesk Education Community website. Students also may be eligible for academic rates on other software for their own home computer. Prices and restrictions are subject to change by the software developers. Software versions should reflect the version used in class; an older version may not possess the same interface or tools demonstrated in class. It is each student's responsibility to verify that his/her computer meets the software's minimum system requirements. *For more information call (310) 825-9061.*

#### Digital Presentation I: Photoshop/Illustrator

4.0 units

This comprehensive, hands-on course introduces designers to digital design tools. The course begins with an overview of architectural and interior design concepts; students also review client presentations and see how they were created. Designing and using these professional tools is essential to the creative process of design and presentation production and are introduced to using the computer for drawing, illustration, and layout. Fundamentals of layout, typographic design, scanning, and image-enhancement software are covered, and students present projects in class. Software applications covered include Adobe Photoshop and Illustrator. *This course is equivalent to Cal Poly Pomona INA 550.*

*Prerequisite(s):* Working knowledge of Windows or Mac operating systems. Software requirements: the most recent versions of Illustrator and Photoshop.

**SketchUp**

2.0 units

This comprehensive hands-on workshop covers the basic 2D and 3D commands necessary to construct 3D objects and interiors using the award-winning SketchUp software. Developed for the conceptual stages of design, this "pencil of digital design" is powerful yet easy to learn. Students use an existing floor plan to design a project that incorporates 3D interiors and various types of renderings. Students learn advanced commands, such as modifying, editing, and offsetting 3D objects. Additional topics are the fundamentals of creating textures, defining materials, using architectural dimensioning, using perspective and isometric views, creating sections, and editing text.

**Advanced SketchUp**

2.0 units

This advanced course pushes your basic SketchUp skills to the next level. You develop a model that includes interior and exterior spaces. This course is designed to provide the necessary skills to thoroughly develop a model for presentation and construction purposes. Advanced topics such as custom material creation; importing CAD files as background; creating custom furniture and fixture components, styles, and walk-throughs; and organizing a heavier model using scenes and layers are covered in this course. SketchUp Layout, a fantastic tool for translating a model into working drawings, is also introduced. This course is ideal for the designer looking to maximize his or her skills with this powerful design communication software.

**Interior Architecture Studio I**

6.0 units

In this first in a series of studio courses, students are given the opportunity to apply fundamental design principles to the layout of interior spaces. Starting with the development of a design concept, students learn how to develop a space while incorporating the elements of ergonomics and human factors. Students also explore methods of analyzing a client's program, beginning with the bubble diagram, the block plan, and the adjacency requirements. Through a series of assignments, students become familiar with current ADA codes and clearance requirements, as well as the required circulation and exit paths for a variety of building types.

**History of Environmental Arts: Part II**

4.0 units

Part two of a four-part survey course on the environmental arts of the Western world. This course traces the architecture, landscape architecture, furniture, art, and decorative arts from the Italian Renaissance to the beginning of the nineteenth century in France, England, and America. Periods covered include the Renaissance, Mannerist, Baroque, Rococo, and Neoclassic. Instruction focuses on the man-built environment influenced by geographical location and the social, religious, economic, and political forces of history. Major monuments are discussed in terms of function, symbolism, methods of fabrication, style, use of color, ornament, and significance. Illustrated lectures, readings, and student projects develop an appreciation of the rich cultural heritage of the Western world. Students learn how to utilize library and museum resources and recognize and evaluate significant environmental design movements. Intended to establish an understanding of the achievements of the past in order to more fully understand the present.

**Contemporary Applications of Historical Design: Part I**

2.0 units

This course is an intensive study of the history of decorative arts with an emphasis on how Asian and Islamic styles influenced Baroque and Rococo, which in turn influenced Art Nouveau. The course emphasizes practical applications of these historical concepts in contemporary interior design. This course is separate from and not dependent on Contemporary Applications of Historical Design, Part II. This course is designed to give students a deep understanding of both the academic and practical aspects of historical decorative arts. Students will not only gain mastery of vocabulary and an understanding of styles, but also learn about the social forces and technological developments that shaped the history of design. Students will learn about actual artisanal techniques and materials. Other practical applications that the course will teach include a) incorporating antiques into contemporary interiors, b) using reproductions of past styles, and c) creating modern adaptations from earlier periods and styles—all of these being integral skills of any working interior designer in today's design field.
